

"Felt Like Eating"

Man and Wife, All Run-Down from Farm Work, Were Greatly Helped by Ziron.

"MY WIFE and I, after a hard spring on the farm, were tired and run-down," says Mr. E. B. Mulkey, of Route 1, Acworth, Ga. "We neither felt well. I knew my blood was bad, as I had little boils on the back of my neck.

"We felt we needed a builder. We had heard of Ziron and thought it must be what we needed. It certainly was. We took it faithfully, and after a week or such a matter we began to feel better. My wife felt like cooking,

and I sure felt like eating.

"Ziron sure did us good. It made us both feel stronger and better for the fall work, which everyone knows is 'some work' on a farm. My boils began to dry up, though just at first they seemed worse.

"We are much better and can highly recommend Ziron, and gladly do so for it sure did us good."

Ziron is a safe, reliable, tonic medicine, good for men, women and children, when an iron tonic is indicated. It is easy to take and contains no habit-forming drugs.

The County Boosters on Tuesday and Friday visited the western and southern parts of the county in the interest of the Fair and were pleasantly received everywhere, but responses were not of the liberal kind that the Boosters have met in former years, reflecting the present close condition of money matters in the county. On Tuesday of this week the Boosters went on the tour of the northwestern part of the county, and in these trips and the liberal gifts from Somerville and vicinity there has been raised ample funds to meet the premium lists and expenses of the Fair this year and thus to change the matter are gratified at seeing a success of the money end of the Fair. Gifts of more than \$600 have been made by citizens to meet these things.

Among other business transacted Monday by the County Board of Education, that body passed a resolution ratifying an arrangement made by the County Superintendent last week with Somerville Bank & Trust Company by which the bank will cash school warrants for teachers' and janitors salaries until the taxes are being collected in December. Under the old law taxes were due and began being collected October 1, while under the new law they are not due till December 1. The school funds were found to be exhausted at the end of the quarter, October 1, and with the stringency in money matters the banks were beginning to turn warrants down. Under the arrangement made with the Somerville Bank & Trust Company that institution will cash all of the school warrants issued for salaries, so that no teacher will be put to inconvenience for non-payment of salary.

When this issue of The Falcon goes to press Thursday afternoon the Fayette County Fair will be well on in its progress, beginning Thursday morning. The Falcon has long believed in the good of fairs and particularly county fairs and has advocated the holding of such a fair here always. The faith has increased as the years have passed and we look for much good to come of the annual exhibit this week. It has been a step up at considerable sacrifice. It is the work of a very small group of men this year, many believing that because of the stringent times the fair should be called off this time. Somerville business men have given four fifths of the money needed for the premiums and expenses, and they have covered themselves with honor for their liberality. We believe the carrying on of the work and holding the fair wise and The Falcon and its editor have done their part in the work gladly for the public good. We confidently look for good to come of it.

A member of the court asked yesterday at week if we did not have a Rural School Supervisor in this county, or as he put it, an assistant to the County Superintendent. For the information of the public it is stated here that we have no such official for the white schools, Margaret Ware serving the capacity for the colored schools as outlined elsewhere in this issue and is paid mostly from outside funds. The law authorizes such an official and the County Board fixed the salary at \$1200 per year and authorized the County Superintendent to appoint one, but no salary has been made and no salary ever paid out on this authority. The place was offered to two different teachers last year but was not accepted by them and since then nothing has been done about it and the County Superintendent has visited nearly all the schools since they opened in August and will complete the rounds by the end of this month. If an appointment had been made the state would have paid one half the salary, the county half.

DREADFUL DISEASES CAUSED BY HUNGER

New York (Special).—Now and dreadful diseases, previously unknown to medical science, have developed to a great extent throughout Poland, and malnutrition and hunger are responsible, according to Mr. Bernard Horwich, of the Joint Distribution Committee of American Funds for the Relief of Jewish Sufferers from the War.

Within the past two years, he says, great numbers of little orphaned children have died throughout Poland, although in spite of the high death-rate there are still some 40,000 fatherless and motherless little folks. During the past two or three years infant and child mortality has been so heavy that fewer under six years of age have survived. Typhus and other diseases are claiming thousands of victims. Mr. Horwich makes this observation as the result of his observations as the Relief of Jewish Sufferers from the War, to the moral and mental effect of this life of constant hunger and disease.

A Story of Peculiar Fascination Set Amidst the Grounds and Within the Walls of a Weird House.

The Mystery of Hartley House

By CLIFFORD S. RAYMOND

It is a strange household that young Dr. Michelson encounters when he accepts the post of resident physician to old Mr. Homer Sidney. Under what inexplicable tyranny from the past do these people live? What is in the manuscript which the piratical Spanish sailor endangers his life to possess? Why does Mr. Sidney have a sudden return of strength on the same day of each year? What is the cause of Mrs. Sidney's depression, Mr. Sidney's rare malignity? These are only a few of the questions you will ask until the final and amazing answer comes.

An Agreeable Surprise

"About three years ago when I was suffering from a severe cold on my lungs and coughed most of the time night and day, I tried a bottle of Chamberlain's Cough Remedy and was surprised at the promptness with which it gave me relief," writes Mrs. James Brown, Clark Mill, N. Y. Many another has been surprised and pleased with the prompt relief afforded by this remedy.

LACK OF CLOTH BREEDS EPIDEMIC

New York (Special).—A great lack of cotton goods in Poland is causing a terrible epidemic of skin diseases there, according to the reports of American Jewish relief workers in that country. The shortage of this material for shirts and underwear is largely responsible for the filth that is to be seen on every street of the Polish cities, and is also a contributing cause to the plagues of typhus and consumption that are devastating Poland.

"The absolute lack of material for underclothing has brought about extremely bad health conditions," says a report just received by the American Jewish Relief Committee in this city, "and an alarming number of contagious skin and eye diseases are running through the population. The crowded housing conditions make it impossible to check these diseases unless clean clothing and soap can be procured."

"In the hospitals the only bandages used for dressings are strips of shirts and clothing that the inmates could no longer wear. In one large institution at Lodz, caring for the insane, the patients are obliged to remain in bed a day or two at a time while their one change of clothing is being washed."

The funds of the American Jewish Relief Committee are providing food, soap and clothing in all these stricken regions, but the present needs have outgrown the immediate resources of the organization. To carry the work through another year the committee is asking \$35,000,000 of America in 1920.

WHY BUILD A SILO?

1. Make it possible to keep more stock on the farm which means more manure for the land.
2. Insures a succulent feed in winter and dry spells when pasture fails.
3. Provides a balanced ration when fed with protein feeds such as alfalfa, clover, bran and cottonseed meal.
4. The silo takes care of the crop and clears the land for early fall plowing.
5. There is smaller loss of food material when the crop is made into silage than when cured as fodder or hay.
6. Corn silage is better feed than corn fodder.
7. An acre of corn can be placed in the silo with less cost than the same area can be husked and shredded.
8. Crops can be put in the silo during weather that can not be utilized in making hay or curing fodder.
9. More stock can be kept on a given area of land when silage is the basis of the ration.
10. There is less waste in feeding silage than in feeding fodder. Good silage properly fed is all consumed.

Indigestion, Billiousness, Constipation

Chamberlain's Tablets have restored to health and happiness hundreds who were afflicted with indigestion, billiousness and constipation. If you are troubled in this way give them a trial. You are certain to be pleased for they will benefit you.

When the chest feels on fire and the throat burns, you have indigestion, and you need HERBINE to get rid of the disagreeable feeling. It drives out badly digested food, strengthens the stomach and purifies the bowels. Sold by Price Drug Co.

MICKIE SAYS

ONE GUY THAT RUNS NECK AND NECK WITH THE KAISER FOR POPULARITY AROUND THIS OFFICE IS THE COWARDLY WAMPUS WHO LETS HIS PAPER GET A YEAR BEHIND AND THEN REFUSES IT AT THE POST-OFFICE TO AVOID PAIN. WHAT HE OWES US

White Leghorn Pullets, hatched April 2, this year, have commenced laying. A few Cockerels of the same hatch, \$3.00 each until September 15, after which they will be \$5.00. One of these Cockerels, added to a flock of common hens will increase your egg production 50 per cent.

SOMERVILLE PLANTATION

When You Sell Your Cotton

CALLS ANSWERED PROMPTLY

Office Phone 131

LOCAL AND PERSONAL

Mr. and Mrs. Ione Heiner, of Memphis, were the guests of last Sunday, of Miss Lucile Higgs.

Mrs. J. N. Maxwell of Leland, Mississippi, is here this week the guest of her sister, Mrs. H. C. Moorman.

FOR SALE—Two used Ford touring cars. In first class condition W. H. Hughes. 10-15

J. A. Summers Esq. of Williston is in Somerville the guest of his son, Hon. J. B. Summers.

FOR SALE—One Cole's Hot Blast Heater in first class condition see O. Kornick at Lipsky Bros. 11

Mrs. Alice Harvey spent several days the past week in Memphis the guest of her son Frank, and family, the family including Frank Jr. who was mentioned in these columns recently.

LOST—Between Somerville and John Wainwright's, one 30x34 tire, rim, and cover. Return to Horace Gudgers restaurant for reward. 11

F. Goosman spent the past week end in Memphis with his daughter, Mrs. F. J. Bowers of Birmingham, who recently underwent an operation in Memphis and is yet quite sick in that city at the home of her sister, Mrs. Richardson.

STRAWBERRY PLANTS FOR SALE—Klondike strawberry plants, 75 cent per hundred Mrs. W. A. Winfrey, Route 1 Somerville. 10-15

Mrs. Ernest Grizzard of Huntington, Tennessee, was the past week end the guest of Miss Sallie Horton at the latter's home here. Mrs. Grizzard will be remembered here as Miss Margie Stone. She was the primary teacher in the local city school for a number of years before her marriage and was one of the community's most loved teachers.

Registered Durocs, pig, services males, bred gilts, at reasonable prices. W. T. Loggins. 10-30

The numerous working clubs of boys, girls and women in Fayette County who have had the active assistance of the Home Demonstration agent and the Farm Agent will hardly agree with the county court that it is wise to abolish these agencies next year. They have brought to the county many times their cost.

FOR SALE—Fordson Tractor, Two-disk 24 in. breaking plow, 28-disk Tandem Disk harrow, all used one season, for \$1,000. One Sharples "Tubular A" Cream Separator, never used, \$80. One Prairie State 150-gg incubator and one Buc-eye incubator, \$15 each. Two registered Duroc sows. S. P. Crawford, Williston. 10-22

Farmers of this county are harvesting what is now said to be the best lespedeza crop they have had in many years. Many fields are said to be turning out as high as two tons of first class hay per acre, and everywhere the yield is heavy and fine, and the favorable weather has made it possible to harvest the very best quality of hay one could wish for.

Silver Laced Wyandotte pullets and cockers are for immediate sale at \$2 each. This price only during early fall. W. W. T. Loggins. 10-30

In the special election for Justice of the Peace which is being held Friday of this week there are two candidates who have qualified and have their names on the official ballot. They are Geo. W. Farrar and Joe H. Scott. They are two of this city's best known and most popular citizens, both well qualified for the duties of the office they seek and each is capable of doing good service as a member of the county court.

A good crop of sweet potatoes is being harvested in this section now and the price is dropping as it does every year at digging time. Many a potato dug now is doomed to rot because of the late season of the late curing and storage houses. The Falcon has often commented on the need of a central storage house in Somerville and we believe it would prove a paying investment for some one to operate it, or for co-operation between. Enough sweet potatoes rot in ten miles of Somerville each year to pay for building the house.

Petitions have been filed with the Election Commissioners of the county for a special election in the corporation of Oakland for a corporation Magistrate to fill the vacancy caused by the recent resignation of J. N. Clay Esq., and another petition for a special election in the eighth district for filling the vacancy caused by the resignation of W. L. Tomlin as a district magistrate. The Commissioners will act on the petitions at an early date.

Sheriff Ross received Wednesday notice from the Democratic State Headquarters at Nashville that Hon. Weber Wilson of Mississippi, will speak at the court house in Somerville tomorrow, Saturday October 16, in the interest of the national and state campaign, and the public is cordially invited to hear him. Also, Hon. Harvey Hannah, State Railroad Commissioner for this state, will speak here on Thursday, October 28, and everybody is invited to hear him.

By invitation of the owners of the big new plant of the Planter-Gin & Mill Company last week a Falcon representative went over the new outfit, saw it in action. It is certainly a most complete plant and we believe the best gin house we ever saw. The new concern is running regularly, is owned entirely by home men and is bidding strongly for its share of the ginning business. They have, also, a saw mill which runs most of the time and is turning out lumber for the needs of this section, a thing which Somerville has needed for a long time.

The County Board of Education met at the court house Monday morning and transacted considerable business, most of which was of a routine nature. Application to the Board from numerous teachers for holiday on Friday to give teachers and children an opportunity to attend the County Fair lead to the passage of a resolution authorizing any teacher who attended the Fair to dismiss school for the day Friday without making same up. This was the regular quarterly meeting of the Board and four of the five members were present, as follows: Wyatt Wilkinson, J. C. Perry, W. H. Coker and J. D. Hewlett, the fifth member, Dr. C. N. Crook being temporarily out of the county.

Chairman W. G. Shilton has appointed the following gentlemen as members of the Highway Commission to serve the remainder of the present year: D. C. Boyd Esq., J. M. Hull and W. S. N. W. y, all of Somerville, and they organized Monday of this week by electing Esq. Boyd as Chairman. So far as The Falcon could learn the new Board contemplates an extensive road work thru the remainder of the year for the reason they have no fun as to have work done with. They are true well known citizens with wide experience in public matters, including road work and are thoroughly capable of doing good work for the county's highways if they had the money to work with.

One can see in the past week more signs than at any previous time of dropping prices on every day commodities. One of Memphis' largest department stores has advertised a twenty per cent reduction on every article in the house except a few which manufacturers have fixed prices on. A big Chicago mail order house has set out special prices on a catalog issued a month ago and most prices are reduced. Retail merchants are seeing the dropping prices and are hurrying to get rid of high priced stocks before the prices go down further. Many articles of groceries are feeling lower prices. These prices begin to look like the producer might get some benefits from price reductions.

The Falcon does not know what financial success the local plant has met with during the season now early over, but we do know that it has proven a wonderful convenience to the people of this section in furnishing a constant supply of ice every day it was wanted at a moderate price. Under the old plan of shipping ice here from Weir's or Jackson shipments ceased with the first cold spell and then when the hot spell followed, as it always does, no ice could be had. Now the supply is constant and the people who want ice are getting it daily just as in the hot weather. The management of the plant deserves the appreciation of this community for the good service.
